ARTIFICIAL COLD.

An Invention of Great Practical Value—Refrigeration by Machinery, without Ice or Chemicals.

From the Chicago News.

The transportation of live and dead meat from the New to the Old World has rapidly grown into a very important business, and the ocean steamship refrigerator has been so improved that it was thought nothing more could be added. But now we learn that a Mr. Coleman, of Glasgow, Scotland, has invented a process of producing a low temperature in sea going vessels *without the use of ice, or any chemical agency whatever*, whereby an unlimited amount of cold can be manufactured on shipboard by the purely mechanical process of compressing and expanding ordinary air. The inventor first

MADE A CONVINCING TEST

on the Circassia of the Anchor Line On the 16th of last month this vessel landed at Glasgow a consignment of meat, consisting of 1,216 quarters of beef, and 250 carcasses of mutton, which had been kept, by this process, at a uniform temperature of about 38 deg. Fahr. throughout the voyage. The machinery on board the Circassia is capable of discharging 500 cubic feet of air cooled to 40 deg. or 50 deg. Fahr. per minute; an amount found in practice to be sufficient for keeping at 36 deg. Fahr. a chamber of 16,000 cubic feet measurement, with an external temperature of 60 deg. to 80 deg. The London *Times* asserts that Mr. Eastman, of New York, has arranged with the patentees for using their apparatus in connection with his gigantic trade; also that the United States have sent a commission to examine, with the view of utilizing the invention in Southern refrigerating vessels to prevent

THE SPREAD OF YELLOW FEVER.

The English War Office and the India Office are also investigating the process, with a view to the supply of cool, pure air to barracks, hospitals, and other such buildings. In fact, the uses to which such a valuable invention can be put can not now be forecast. To mitigate, for instance, the tropical heats of voyages through the Dead Sea to Africa, etc., such a process must prove of inestimable benefit. By this new process ice is altogether dispensed with, and hence, the transportation of dead meat becomes safer, easier, and more economical. If all that is claimed for it comes true, we may very shortly expect a very rapid increase in the meat-transportation trade.

Plowing by Electricity.

From the Chicago News.

At a recent meeting of the Paris Academy of Science, M. Tresca gave an account of some experiments in plowing by electricity which he witnessed at Sermaise, in the Marne. A Gramme machine, making 1200 revolutions a minute, and driven by a steam engine, was connected to a second Gramme at a distance of 440 yards, and caused the latter to revolve at the rate of 1140 revolutions to the minute, the electricity produced by the first machine being thus converted into work. The second machine was connected to a third at a distance of 210 yards, and these two worked cables attached to a double Brabant plow. According to M. Tresca, the experiment was very successful, the work accomplished representing the equivalent of three-horse power, while one-half of the motive power obtained from the steam engine was really transferred to a distance of 1000 yards from the furnace.

Thirst in the Desert.

From the New York Sun.

Five young men belonging to a government surveying expedition got lost on the sterile plains of Colorado. After a day of wandering without water, they disagreed as to the best direction to take, and two went one way while three went another. The two found a camp after intense suffering and thirst. A party hurried out to search for the other three. When they were discovered two were dead, and the third lived only long enough to drink a little water—the first in five days. At about the same time $30,000 fell to him by the death of a relative in Baltimore.

New York Marriages.

In New York, during the year ending July 1, two native Chinamen married Irish women, and three were married to women born in the United States. The total number of marriages during the year was 7629, and of this number 7435 were white males, and 7447 females, and 194 colored males and 182 colored females. This shows that twelve white females married colored men. Seventy-one males and thirty-three females were married for the third time, and two males for the fourth time. Ten males and one female were married between seventy and eighty years, and one male between eighty and ninety years.

A Benton maid was recently married in Carson to a Boston girl. They had corresponded for a long time, but had never seen each other. He proposed and was accepted by letter. She came on to be married, and they met at Wadsworth. She wore a red rose and he a red handkerchief, and thus they recognized each other. The couple are now living happily in Benton, Mono county.

THE HUMBOLDT SINK.

What Was Once an Extensive Lake Now Almost Dry.

From the Silver State.

We have been informed by Big Meadows farmers, who have resided on the Lower Humboldt for years, that the lake commonly called the Sink of Humboldt, is now almost, if not entirely dry. Persons who resided near the water's edge a few years ago are from three to four miles from water now, and only a small stream runs through what was formerly the centre of the lake to the outlet at the Oneida mill. Thousands of acres of the finest and richest land, which has heretofore been submerged, is now dry enough to cultivate. No one seems at all anxious to occupy or claim the land, as the opinion is general that when there is a heavy fall of snow in the winter the lake will spread out to its former dimensions in the spring. Those who have entertained the opinion that the lake is drained by a subterranean outlet can now satisfy themselves that such is not the fact by inspecting the bottom. The drying up of the lake is attributed to the light snowfall in the mountains at the head of the Humboldt last winter and the numerous dams which have been built in the river at different points from Battle Mountain to Big Meadows, by which the waters have been diverted from their natural channels to the bottom lands for irrigating purposes.

Dr. Mintie's Nephreticum.

DR. MINTIE'S NEPHRETICUM works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back side and loin are cured when all other medicines have failed.

See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."

John A. Childs, Druggist, Second street, Portland.

C H Woodward & Co., Druggists, corner First and Alder street, Portland.

Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephreticum as the best Kidney and Bladder Remedy before the public."

All Druggists keep these medicines.

For all derangements of the Liver,
Use Dr. Mintie's English Dandelion Pills.
For Billiousness and Dyspepsia,
Use Dr. Mintie's English Dandelion Pills.
For Fever and Ague,
Use Dr. Mintie's English Dandelion Pills.
Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended. jan6-6m

THE SECRET TRIBUNAL.

The attempts made to suppress ruffianism and like nuisances by use of force, when moral suasion failed and the law seemed powerless, have met with the silent consent of the citizens of Reno. The only reason, however, that an instant and energetic protest was not entered was that, in the cases handled, there was convincing proof of crimes against society, but the same proofs were not such as would be unanswerable in court. It is easy to say a man shot a dog, but who saw the bullet hit the aforesaid dog? To prove to the satisfaction of a modern jury that a man sold or gave whiskey to squaws is no small job. But when the only offense a man is guilty of is vagrancy or incendiary threats which are publicly made and easily proven, there seems to be no necessity for assisting the ordinary process of justice. Any citizen can swear out a warrant and rid the town of any vagrant or dangerous character, and it seems as if it would be better for the community to adopt that system than to tar and feather objectionable characters, a practice which should only be adopted as a last resort. The experience of this town has been that it is next to impossible to convict even the worst criminals of vagrancy. If a complaint is entered, the accused gets a lawyer, by hook or by crook, demands a jury trial, and throws every obstacle in the way of the trial, so that before the thing is done with, it has cost a couple of hundred dollars. There is no doubt but the tar bucket has saved a thousand dollars to this county. The gang, or society, or brigade, or whatever it is, seems to be guided by men of sense and, thus far, they have made no serious mistakes. It is a matter of regret that this thing has taken the shape it has, but the law, in the effort to prevent injustice to innocent parties, has become so tedious and cumbersome that it is almost a useless affair. Under the existing condition of things mistakes of a very unpleasant character might occur. We hope there will be no further use for the tar bucket for it is hard to tell what the practice might lead to, and it is better to be too lenient under the law than too severe outside of it.

GLENN'S CRIMINALITY.

The posession of many thousands of acres of land is both the strength and the weakness of Dr Glenn. His estate in land is his only claim of distinction, as well as the sole foundation for the abuse which is heaped upon him. The manner in which Glenn is assailed by many of the California papers would be deplorable if it were not so ludicrous. The Republican papers are not contented with praising Perkins, the Republican candidate. They are not satisfied with demonstrating that Glenn's virtues are merely of the negative order. They must show that Glenn is a bad man. Poor Glenn had never been in politics, and had no record to rake over. But it was notorious that he owned land. So the *Record-Union* hunts up a copy of Herbert Spencer's "Social Statics," and publishes a page of it to show the immorality and selfishness of owning any land. As the extent of Glenn's acres became generally known, his wickedness became more glaring, and the virtuous indignation of his assailants increased. The quaint old *Alta* is positively funny in its criticisms of "The Mogul of Colusa." Here is something from the dear old sheet, that reads like the wildest caricature:

"The point is, not that he [Glenn] farms a large area, but that he owns it. He not only owns the land, but he has acquired and held it in a particularly offensive manner. It did not come to him by inheritance against his will, or when it was useless for any purpose save pasturage. He bought it, knowing its value for cultivation, and intended to cultivate it and prevent others from purchasing."

If Glenn had stolen that land, now, it would have been all right.

MANUFACTURING COLD.

A new patent process for making cold is announced, which operates on the principle in use in ventilating our deep mines—that of suddenly releasing compressed air from pressure. Every school knows that that process makes the air very cold. How far it can be made useful in regulating the temperature of sea-going vessels and store-houses, can only be proved by experiment. There is nothing out of the order of nature in it, however. Still it may be one more added to the long list of scientific hoaxes gotten up by newspaper reporters.

THE INDIAN NUISANCE.

The United States government has a reservation at Pyramid lake for the Piute tribe, and another at Walker river for the Washoes. These Indians ought to be kept on their reservations. They lie around the towns and only associate with loafers who often get them drunk. Their condition is such as one would naturally expect. They are very dirty and disease is fearfully prevalent. There is no reason why these Indians should loaf around the towns. They are now driven out at sundown, and we would favor their banishment entirely. On their reservations efforts are made to teach them something; but here only the most degrading influences touch them.

EDITORIAL NOTES

The investigation into the alleged frauds in the management of the Bullion and Exchequer mines is a move that is very popular in San Francisco. There was once a time when it was considered weakness "to squeal" at rascally stock manipulation, but that time has gone by. That the stock boards have taken decided action in the matter of the Schultz frauds is a good sign. It is reported J. C. Flood denies having anything to do with Schultz in the matter. An injunction against the collection of the pending assessments on the Bullion and Exchequer mines will be applied for immediately.

The London *Sportsman* of June 21 contains an account of a recent performance by Dr. Carver, the wonderful rifle shot. To an unpracticed gunner it is a difficult thing to hit a glass ball, of about two inches in diameter, with a charge of shot, when the ball is thrown into the air. But this phenomenal Dr. Carver, using a light rifle, out of 100 glass balls thrown into the air, shattered 90 with his bullets, and did the feat in the incredibly short time of three minutes and nineteen seconds. What a marvelous performance, considering that the time allowed was only two seconds for each shot!

We have received a copy of the Mammoth City *Herald*, a new paper of Lake District, Mono county, Cal. It makes an excellent appearance. The *Herald* is a semi-weekly. It is published by Wm. W. Barnes, and we wish him success in his enterprise.

Piutes as Bait for Leeches.

At Pyramid Lake, says the *Enterprise*, the Piute fishermen resort to what would appear to be a very disagreeable expedient in order to obtain bait. They divest themselves of their clothing and go into certain shallow pools, where they lie and wallow about for a time, when they come out stuck full of huge black leeches. By the time they have stripped off the ugly creatures they are covered with blood from head to foot. The leeches are used bait for trout.

The stockholders of the Northern Pacific railroad will take the whole subscription of $2,000,000 for the construction of 130 miles of the road, from the Columbia river eastward to Pen d'Oreille lake. The rails have already been purchased.

A Fall River dispatch of yesterday says: To-day begins the fourth week of the strike, and the needy spinners can now call upon the unions for aid. The officers of the spinners' union were busy all day filling out orders for assistance. They state that no regular sum will be given, but orders will be issued to meet the wants of individual members.

THE HELIOGRAPH.

A Wonderful Instrument—The Little Mirror That Signals Over One Hundred Miles.

[Mining and Scientific Press.]

Devices for signaling, very similar to the heliograph or "sun writer," have been in use for ages. As far back as the Persian invasion of Greece polished metal surfaces were used to flash the rays of the sun and give warnings of one kind or another. The signaling in this and other cases was, however, imperfect, and could not be carried on over a space of more than 18 miles. But the instrument now in use, the Mance heliograph, is a great improvement, for it not only concentrates the sun's rays but it flashes them with the utmost precision to any required spot, irrespective of the relative location of the sun. It is also provided with a finger key, so that flashes may be made of long or short duration, thus permitting the employment of the

MORSE TELEGRAPHIC ALPHABET.

Under favorable conditions intercourse has been carried on through the medium of two of these instruments over a distance of nearly 100 miles, and at several points occupied by the English army at Afghanistan, regular communication is maintained at distances of not less than 50 miles by heliographic signals. The instrument weighs only seven pounds and can be carried and worked by one man. It is, of course, useless in cloudy weather. It has already been proposed to establish a systematic telegraphic communication between various islands in the West Indies by this process, and before long it will be adopted as a means of signaling between vessels when at sea.

Eucalyptus for Cold in the Head.

A European writer asserts that acute coryza, or cold in the head, is cured in half an hour by chewing the leaf of the eucalyptus and slowly swallowing the saliva. Its action is doubtless similar to that of cubebs, which will produce the same effect.

Since paper napkins were introduced by a manufacturing firm in Wisconsin, a year ago, one Boston firm alone has sold 250,000 of them.

Sir Astley Cooper's Vital Restorative: The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a quack nostrum, and produces results that are wonderful.

Why will you suffer? Send to A. B. Mintie, M. D., No. 11 Kearney street, San Francisco, or the Restorative, and be cured. Price, $3 per bottle. Four times the quantity, $10. Try a bottle. Dr. Mintie treats all private diseases successfully.

BORN.

HYDE.—To the wife of C. B. Hyde at the English Mill—a daughter.

JOTTINGS.

—The Palace hotel is ready for lodgers.

—Grasshoppers thick at Mayberry's —Mayberry's alfalfa getting thin.

—Rosenbloom & Stenge, Reno merchant tailors, have opened a branch house in Tuscarora.

— No. 7, the freight train delayed by the fire, passed Reno about 1 o'clock this morning.

— Water south of the railroad track will be turned off early to-morrow until ten or eleven o'clock.

— Isaac Barnett has received an assortment of lace top, lisle thread, gloves and colored silk mitts.

—Several drunken Mahalas rolled in the dust and tore each others clothes on the Plaza yesterday afternoon.

— A valuable saddle horse, the property of Lieu't. Einbeck, of the coast Survey, died last night at the Lake house stables.

Picnic To-Morrow.

The picnic at Bowers' Mansion to-morrow bids fair to be the best of the season, judging by the extensive arrangements that have been made by the Committee in charge. There will be a special car from Truckee, to join the picnicers at Reno, and the Renoites will show their good will by giving a social dance at Kimball's Hall to-morrow night for the Truckee folks, who are obliged to remain here from 7 o'clock P. M. until the overland train leaves at midnight.

Games of all kinds will be indulged in at the grounds, and, as good music has been engaged, there will probably be some dancing. The excursion train will leave Reno at 7:45 A. M., so it will be necessary for all who attend to be on hand at the depot in good season. The Committee, E. W. Hayden, H. B. Maxson, J. F. Aitken and J. M. Flanagan, will have tickets for sale, at the depot in the morning, but to-night tickets may be procured at most of the business places in town.

A Whipped Tiger.

The Faro game in the Palace is again a ruined community. This is the third or fourth time the boys have made the dealer stop the deal and back the cards out of the box. The bank is temporarily closed to give the dealers a chance to replenish their exchequer and brace up for another turn. They have gone to the Comstock to dig up.

Tom Barnett has a clearance sale of Summer dry good. Grenadiens, Pique's, Lawns, at bottom figures. Domestic goods, Carpets, and Oilcloth, sold cheaper than the cheapest at Isaac Barnetts. jly18

THE CORONER'S INQUEST.

Charles Whitham Found Dead in His Cabin in the Mountains.

Coroner Jones went up to Poor's old mill, about ten miles from town, this morning to hold an inquest on the body of a dead man, found there yesterday by Mayberry's woodmen. The deceased was a prospector, named Charles Whitham, a native of Germany and aged about 45 years. He was lying face downward on his blankets, and had evidently died without a struggle. He died of heart disease or apoplexy. The body was very much swollen and discolored, and life had apparenetly been extinct for three or four days. No papers or valuables were found on the corpse except a silver watch. A mule and a horse, and a lot of provisions and mining tools were found in the camp. An inquest was held, and a verdict in accordance with the above facts rendered. The remains were interred near where they were discovered.

A Rib Story.

A school trustee of Milford recently attended an examination of the public schools at that place. The class in physiology was called up, and the question asked, "How many ribs has the human body?" "Twenty-four," was the answer, given correctly. The teacher approved the reply, and was about to put another question, when the trustee interposed, remarking that the last was incorrectly answered. He contended that there are only twenty-three ribs in a man's body, and appealed to the Scriptures in support of his position. Adam's ribs, he said, were reduced to twenty-three, when the compulsory loan was effected for the creation of Eve, and all his male descendants had since been born with only twenty-three. The trustee departed from the school, feeling that a great reform is needed in the matter of text books.

Mining Outlook in White Pine.

Times are "on the improve" in White Pine county, says Sheriff Raum, and the mining outlook is brighter than it has been for some time past. Four mines are being worked on Treasure Hill, though the operations in none of them are very extensive, and Hamilton is considerably livened up in consequence. At Ward, the Paymaster mine is successfully worked, and the camp, though not lively, is fairly self-supporting. The Star mill and mine are running at Cherry Creek, and two New York companies have commenced operations on some mining properties in the district. Ex-Senator Spencer, of Alabama, and some other capitalists, are examining Cherry Creek mines with a view to making purchases.

A Good Shoot.

From a gentleman who returned from Bodie last night on his way to San Francisco, a GAZETTE reporter learns that matters are looking rather fishy in the Bodie mine. He says the north winze has been stopped by water and the ore taken out and sacked for a space over twenty feet wide. There is very little water in the winze and yet the work of rigging pumps, pipes, etc., has been going on for a couple of weeks. He says the ore body is very small and cannot be expected to run far down so rich. He believes there will be a big break in the market and advises people to get out.

Almost an Accident.

Yesterday afternoon a man was making some changes in his clothing, in the rear of the beer saloon on the corner of Virginia and Second streets. In removing his pants, a revolver slipped from his pocket and struck upon a bench. The jar discharged the weapon, and the bullet struck very near the head of a man who was sitting in the back doorway of the saloon. People who carry pistols should be more careful.

For the Next Sixty Days

We will sell our present stock at reduced prices. We must do so to make room for our fall importation, which is to arrive about the latter part of September. All goods will be marked in plain figures, and all in want of clothing, dry goods, carpets, lace curtains, boots, shoes, hats, caps, etc., etc., will certainly save money by calling to see us before purchasing elsewhere. Great Eastern I X L, Virginia street, Reno, Nev: *

A Gunpowder Accident.

Yesterday about noon a little boy named Willie Webber was badly burned with gunpowder at Trefry's ranch. His elder brother had taken him on a shooting expedition. In pouring powder into a flask about two ounces were spilled upon the ground. The little fellow saw the powder and lightly touched a match to it, producing the desired flash. The child's face was blistered and his eyebrows and hair were singed.

The First Newspaper.

The first newspaper ever published appeared in Venice in 1526, and was called the *Gazetta di Vanezia*. It took its name from the coin for which it was sold. The Weekly GAZETTE is a much better paper than its predecessor, and costsonly $2 50 a year. Now is the timeto subscribe.

Another White Pine Delegate.

Sheriff Raum, of White Pine, arrived last night from Hamilton, en route for Carson, with Thomas Sheridan, sentenced to one year's imprisonment in the state prison for horse stealing. He left for Carson this morning.

PERSONAL.

D. H. Barker goes to Austin to-night on government surveys in surveys in Churchill and Lander counties.

Among the passengers this morning were Captain Dall, Judge and C. J. Hillyer, Mr. McLaughlin and H. Z. Osborn of the Bodie *Standard*.

T. V. Julien returned home this morning bringing with him a gentleman from California who represents parties who intend building a furnace on the new electric plan.

The Position he Wanted to Fill.

He looked like an allegory of poverty, but traces of gentility clung to him like a bull terrier to a sheep-thief, and he wore his parody of a dress coat as if it were the purple of imperial Rome. He had on a pair of eye glasses. They were cracked, but he looked through them with just as lordly an air as though they were of Brazilian pebble, gold rimmed.

"John Jones," said Judge Bowker, "you are accused of being a vagrant."

"Tis not so your honor," interrupted John Jones. "I'm a gentleman in search of a position."

"What position are you seeking, Mr. Jones," inquired his honor, sardonically.

"I wish to get a position as husband to some prima donna, a place, I flatter myself, Judge, that I am peculiarly fitted to fill."

"You are about the right looking kind of a goslin' for the billet," said the court, taking in Mr. Jones' *tout ensemble* carefully: "But that name spoils your chances. Who ever heard of a singer marryin' a man named Jones? Jones you are sent up for ten days."

Somnambulism.

Captain A. J. Short, a sheep man who has been in and about Reno for the last nine years, has a habit of walking in his sleep which may cost him his life. Last night about midnight he walked out of his room at the Essex House and fell from a second story window, striking the ground twenty feet below on the edge of an old cellar full of rocks, stone pipe, etc. into which he rolled. Dr. Snow reports two ribs broken and fears internal injuries. Mr. Short lies in great pain and his recovery is hoped, though the extent of his injuries cannot be given yet. He was a Captain in the 2d. Cola. Infantry during the war and later commanded a force of colored troops. He has six children on the coast; where, he does not exactly know himself; one married daughter lives in San Francisco, another in Salinas.

Last Evening's Concert.

The concert last night was favored with a very slim attendance. The music was very fine indeed. The ladies sang well, but the house was disheartening and neither the singers nor the listeners were enthusiastic. Miss Sherwin met with an accident on her last exit. After the mad scene, just as she was in the act of stepping down off the temporary stage, her dress caught and she fell heavily to the floor. Fortunately her injuries were slight, and she was able to take the train at 3 o'clock for Winnemucca, where they sing this evening.

Tracy in the Tolls.

Constable Avery arrested Tracy, the accomplice of Dooley in the burglary of Goodban's restaurant in Virginia, this morning. Chief Allan was telegraphed to, and will be down after him this evening.

Church Notice.

There will be services in the Episcopal church, Rev. W. R. Jenvey officiating.

If you want your watch well repaired to your entire satisfaction, take it to Wm. Goeggel, west side of Virginia Street, Reno. jun24

Banner Brothers' Clothing Store.

The Banner Brothers have constantly coming and always on hand the latest styles of Clothing of every variety. They are live men and mean business. They sell at the very lowest possible rates. Look at some of their prices:

Full Suits—Coat, Pants and Vest...$ 5.00
Men's Cassimere Suits.....$ 7.50
Men's Diagonal Suits.....$15.00
Black Dress Suits.....$25.00

These suits are worth double the present prices. They have just received an immense stock of Spring and Summer goods. Call and see them. Corner of C and Taylor streets, Virginia, Nev. BANNER BROTHERS. jun 19

Talk is Cheap,

And so are fine clothing, boots, shoes and gentlemen's and boys' fine furnishing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this state. Everything we have is new. No old, musty, and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices, and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. we make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Remember th place, the White House, No. 19 Commercial Row.

The Truckee and Steamboat Canal.

Lung Chung & Company, the contractors who are building the 33 miles of the Truckee and Steamboat Ditch, have now finished 28½ miles, leaving four and one-half miles to finish the contract. They are trying to get money to pay off the hands to resume the work. They will be at work again inside of the present week. The Truckee and Steamboat Ditch Company have not overpaid nor paid what is due. If they had made their payments we would have had the canal finished long ago. The canal will cost the contractor about $60,000. AH QUONG, Agent, jul14-1w Lung Chung Company

Summons.

IN THE DISTRICT COURT, OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada sends to Ardeen Jones greeting: You are hereby required to appear in an action commenced against you as defendant by Jemima Jones as plaintiff in the Districtcourt of the Second Judicial District, and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons, (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant intermarried at Mono county, California, on or about July 28th, A. D. 1873, and ever since have been and now are husband and wife; that on or about September 9th, A. D. 1875, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have so continued and do now so continue to desert, abandon and live apart from the plaintiff against her will, wish or consent; that for more than a year next preceeding the commencement of this action you, the defendant, have failed and neglected and now do fail and neglect to provide for the plaintiff the common necessities of life, which neglect is and was not the result of poverty on your part, which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage and no common property. Plaintiff prays to be restored to her maiden name and for costs, all of which will more fully appear from the complaint which is on file in the office of the clerk of said Court at Reno, in said county. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

SEAL

In testimony whereof I, P. B. Comstock, have hereunto set my hand and affixed the seal of said Court this sixth day of December, A. D. 1879.

P. B. COMSTOCK,
Clerk of the District Court of the Second Judicial District, Nevada, in and for Washoe county.

It is now introduced to the public of the Pacific Slope indorsed by the following certificates of the eminent Dr. S. Dana Hayes, State assayer of Massachusetts, and Dr. H. C. Louderback, of St Louis, Mo., both gentlemen prominent in their profession, and which is a guarantee to all buyers of its purity and quality.

I can show thousands of letters from private persons from all parts of the Union and Canada, to testify to its merits and the benefit it has afforded, as a family remedy and tonic.

Oshaim & Shoemaker agents for Washoe county, will supply dealers at jobbers' rates by the bulk or case. may5tf

Also for sale by Pinniger & Queen, Druggists, and by John F. Myers, Druggist.

WHY STAY POOR?

Prospecting often Pays; Idleness Never.

The millions of the Comstock were a lucky find. Worthless looking rock is often rich in treasure. At Leadville a simple assay made millionaires of many. Other bonanzas where least suspected await the coming of some unknown man. Who is he?

At Virginia City, Nevada, assays for Gold and Silver are made at $1.00 per sample, by CONRAD WIEGAND, formerly the Superintendent Assayer of the U. S. Mint at San Francisco.

The mail will carry ore samples to his office for one cent per ounce.

Reports which may be relied on absolutely, come back by return mail, or results are telegraphed when ordered so.

All costs, delays and risks in remitting money are avoided by the purchase of our Dollar Remittance Tickets, which pay for all work done in our establishment.

We sell these prepaid tickets at a discount, when $5 worth or more are ordered at one time.

Small sacks for mailing ore samples also or sale at a nominal price.

REMARKS AND CONDITIONS:

All the trotting races are best three in five, except the two year old trot, which is best two in three.

In all, five to enter, and three to start.

Entries to trotting races to close with Secretary Hoag on August 1st, 1879.

Entrance fee, ten per cent. on purse.

When there are eight or more starters in a trotting race, 150 yards shall be a distance; and where a horse shall distance the field, he shall be entitled to only the first and third money; the second shall revert to the society.

National Trotting Association rules to govern trotting. But the Board reserve the right to trot heats of any two classes alternately, if necessary to finish any day's racing.

Nominations in running stakes to be made to Secretary Hoag on or before July 15th, 1879. Three or more required to fill.

Entries to running purses must be made: For Monday's races, on the Saturday preceeding; for Wednesday's races on Monday; and for Friday's races, on Wednesday, all at the regular time for closing entries, as designated by the rules. Three to enter, and if there are not two starters, the money reverts to the Society.

Those who have nominations in stakes, must name to the Secretary in writing the horses they will start on Monday, on Saturday previous; and on Wednesday, the Monday previous; and on Friday, the Wednesday previous; and no added money will be paid for a walk over.

Horses entered in purses can only be drawn by consent of the Judges.

Rules of Pacific Coast Blood Horse Association to govern running races, except as above specially provided.

RECORD PREMIUM.

In addition to the above attractive programme, the Society will give a premium of a 250 Silver Plate to any horse, mare, or colt that, during the Fair week, makes on their track the fastest record ever made in the United States by any horse of any age, for running to rule in an actual contest, one mile, two miles, three or four miles, whether made in a single dash or in heats.

Also, the Society offers the same premium and the same conditions for trotters—for two year olds, three year olds, and four year olds. Also, the fastest record for a mile of any horse ever made in the United States.

It is understood that this premium will be given only for the above named distances and classes. It is also understood that if more than one horse during the week beats either record, only the horse that makes the best time will be entitled to the Plate.

COLT STAKE FOR 1881.

Trotting stake for foals of 1878, to be trotted at the State Fair of 1881. Entries to close with Secretary Hoag, August 1st, 1879. $25 to accompany nomination, which is to be forfeit; $50 to be paid January 1st, 1881, and $50 thirty days before the race; $400 added by the Society. First colt, six tenths; second, three tenths; third, one tenth. jul10
